Cutoff 0.999 · 60 μs · 250 MHz span · Rabi 0–100 MHz
α/2π = -217.107 MHz; T1 = 27.16 μs; T2 = 6.50 μs; simulation in the rotating-wave approximation

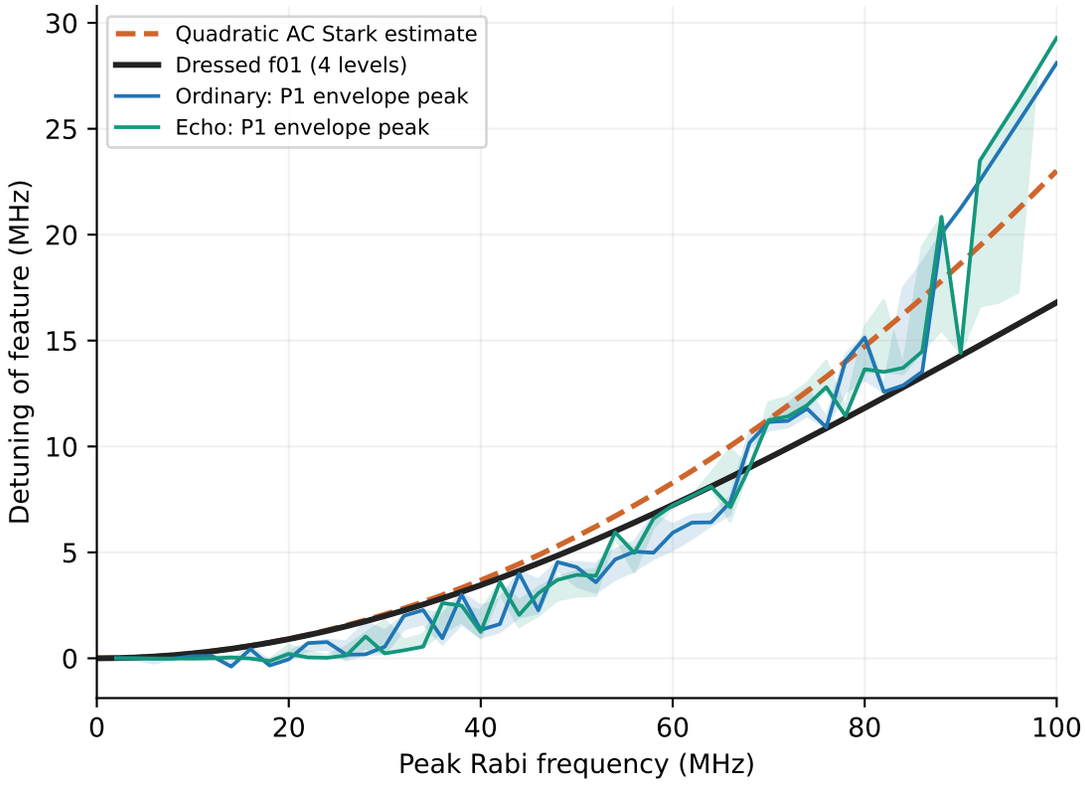

Ordinary pulse — final P_1

Echo: midpoint phase flip — final P_1

Resonance definition matters at strong drive

Raw response; dashed lines = dressed f01
